

Details/How to use (1/6)

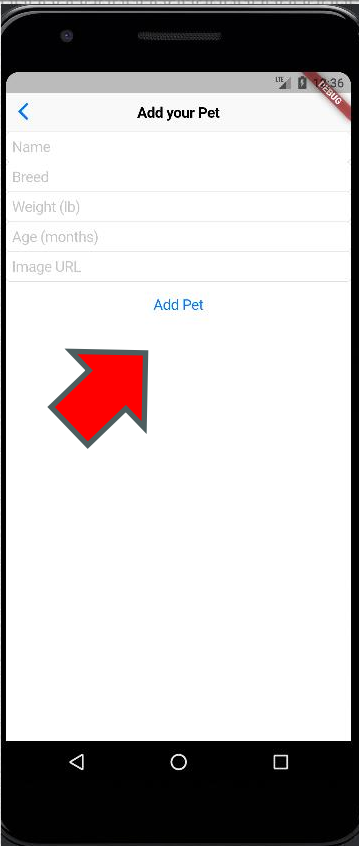

Upon initial loading, you will be brought to the homepage. Start by clicking the “manage pets” link to start managing your pets!

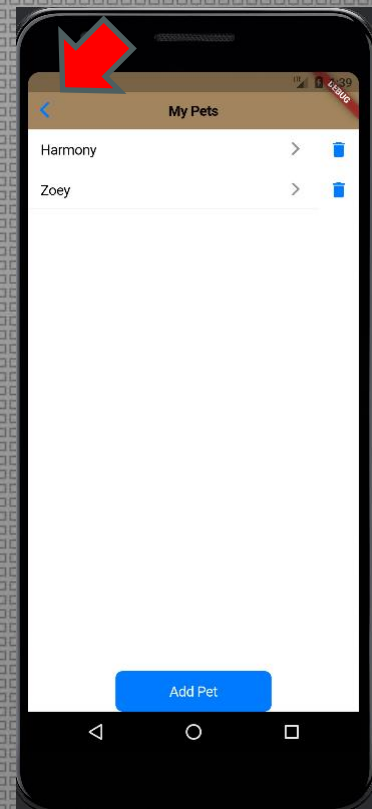

Upon your first time using the app, you will have no pets listed. Click the “Add Pet” button to create your pet on the application.

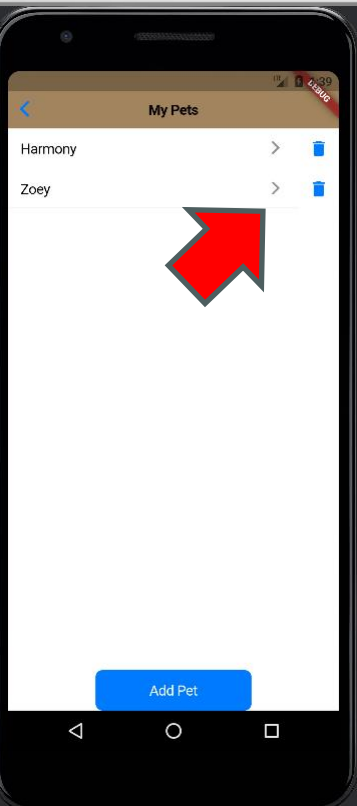

Details/How to use (2/6)

3. Add your pet's information and features to the application, such as Name, age, etc.
4. Upon finishing, press "Add Pet".
5. You will now see your pet info be added along with an option to delete them being added to the right of it (Trash icon). Add as many more pets as you want!

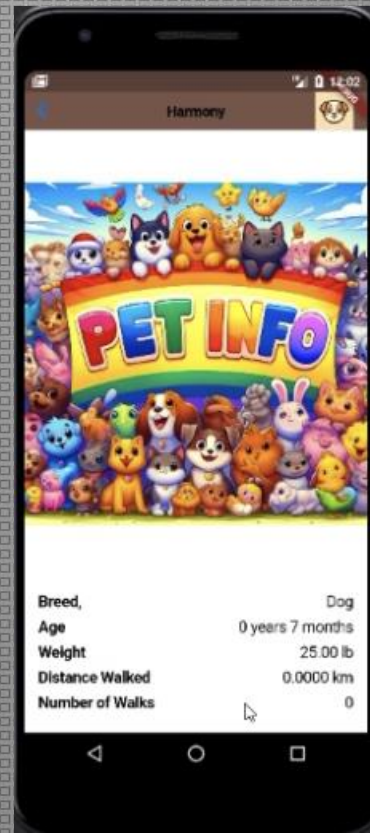

Details/How to use (2.5/6)

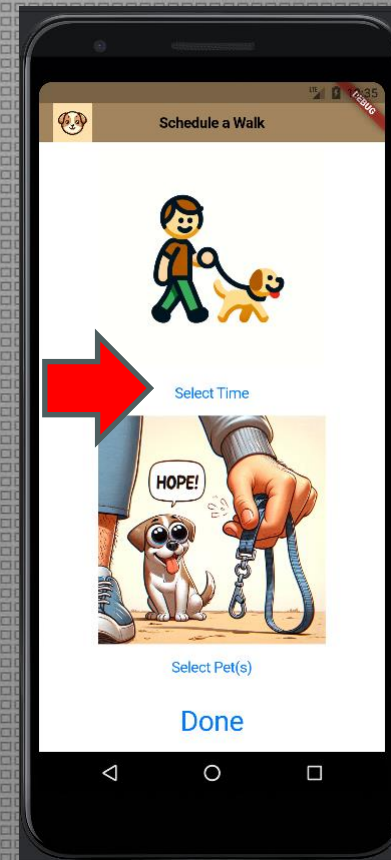

*Note

When you wish to look at your information to examine if you had inserted it in correctly, go and click the right arrow icon to view the information about your pets and verify it is correct.

Details/How to use (3/6)

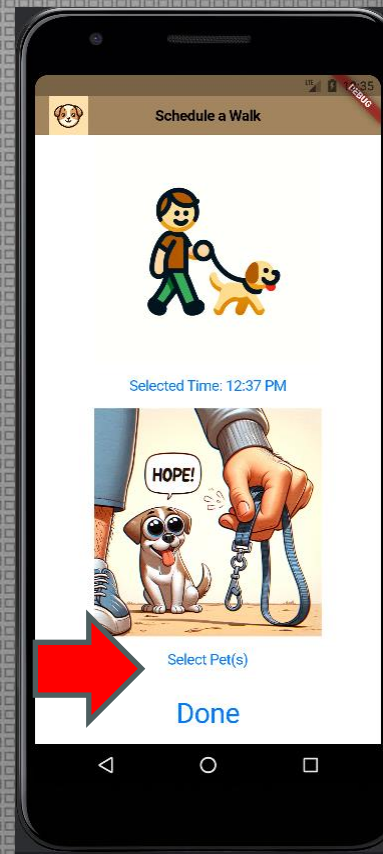

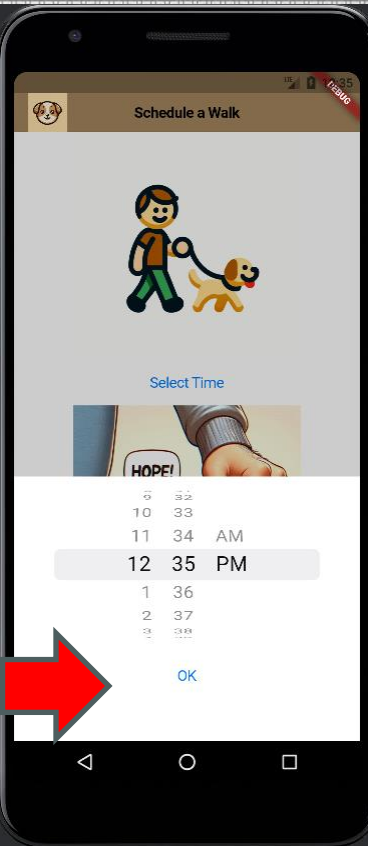

7. You are now back at the homepage. When you are ready to take a walk, or want to schedule a walk for later, click “Schedule your walk and pets”.
8. Click select time to choose a time for the day you will take the walk on.

Details/How to use (4/6)

9. Scroll through until you decide a time you are comfortable with. Once you do, select “OK”.

10. Your time should now show up next to the selected time. Go now to select pets.

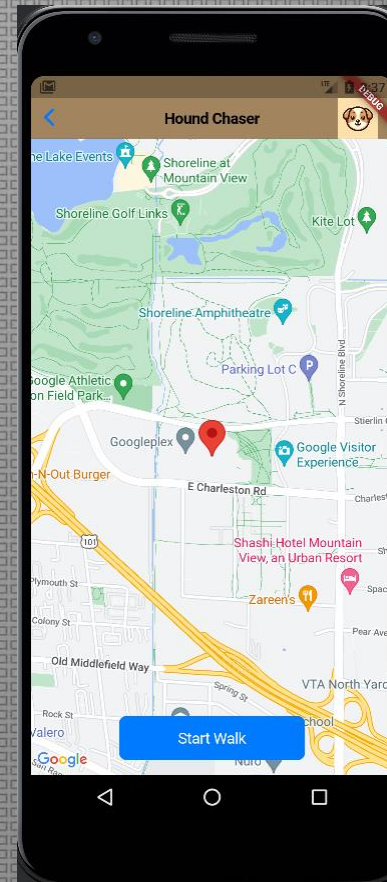

Details/How to use (5/6)

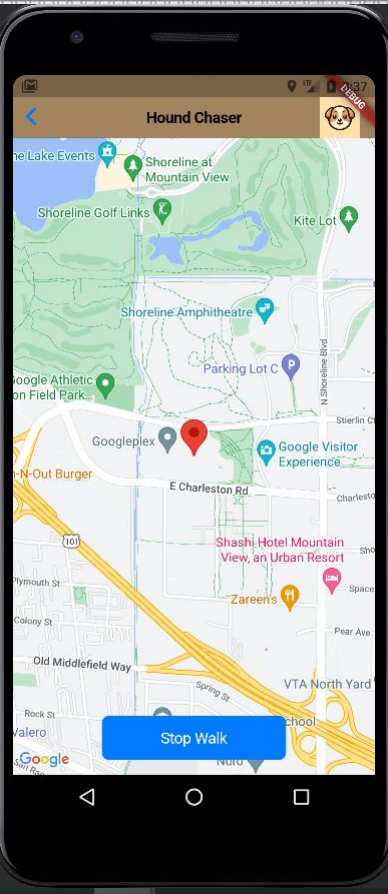

11. Select the pet you want to take with you by clicking on them. Once their circle is bolded, then the app considers them brought on your walk.

12. Now you should walk with the app, use it to take your pet on a walk. When you are ready, and have picked your location. Click on “Start Walk”.

Details/How to use (6/6)

13. Journey with your pet to the destination. Or otherwise click “Stop Walk” if you change your mind and/or can’t go anymore.

14. You will be presented with statistics that explain how your walk went. Things like the distance covered, the pets walked, and the time taken. When you are satisfied, press “Ok”.

And now you know how to use Hound Chaser! Congratulations
